

PHP DEVELOPER – FULL STACK, LAMP, JAVASCRIPT, AWS

About Us

Together Agency is an established marketing communications agency based in Nottingham. We work online and offline for a wide range of clients from the FMCG, Travel and Leisure sectors including Pukka Pies, Fox's Biscuits, and the National Trust.

About the Role

We're looking for a skilled, self-starting, PHP developer to grow our existing team. At Together, you'll be working on a range of different digital projects for our roster of clients and you'll be a key member of the team. Collaborating closely with our account management, project management and design teams, you will be working on the full software development lifecycle, taking full product ownership from day one.

Responsibilities

The main responsibilities for this role are:

- Create digital solutions that answer or surpass our client expectations
- Ensure your work is of a high quality, efficient, and works across a range of devices
- Identify and fix bugs, work on ad-hoc amends and feature requests for existing projects
- Collaborate directly with the wider Together team
- Contribute directly to our technical direction.

Key recruitment criteria

The successful candidate is likely to have:

- 2+ years' experience working in a dedicated PHP developer role
- Experience working for multiple consumer brands in an agency environment, comparable to the scale and stature of Together clients
- A good degree
- Be comfortable across the stack (HTML, CSS and Javascript), with strong ability to match design with front-end
- Strong OO PHP skills, with knowledge of Wordpress, Craft CMS, Symfony Framework and any other CMS systems
- Fully capable across a variety of software/tools, such as composer, webpack, CSS Pre-processors (SASS/LESS), jQuery, gulp, grunt, npm, node and Git.

Beneficial criteria

- Experience with development, deployment, and hosting software/platforms - AWS (EC2/ECS), Linux, Apache, Nginx, Docker, MySQL and Redis.
- Some experience with Google Analytics and SEO.

Personality profile

- Confident and self-assured across all relationships both external and internal
- Persuasive when meeting with and presenting to clients
- Positive and enthusiastic with a desire to succeed
- Good communicator, with effective listening skills
- Able to build positive relationships with clients, suppliers and within the agency itself. Must be a team player
- Highly organised – especially under pressure
- Able to prioritise when dealing with several projects at once.

Key skills/qualifications

- A top degree (i.e. high grade and/or top Uni) in any subject, or in a computing related discipline
- Good writing and grammar skills
- Good numeracy skills
- UK Driving License (desirable)
- Ability to travel to client locations anywhere in the UK (desirable)
- Any professional certifications would be an advantage.

Will report to:

Craig Freer, Head of Digital

Reporting to them:

None

Location

Together Agency, Bridlesmith House, 38 Bridlesmith Gate, Nottingham, NG1 2GQ.
